Aisha Nomani

Tampa, FL | (813) 648-1989 | aisha.nomani@gmail.com | http://linkedin.com/in/aisha-nomani | aishanomani.github.io

PROFESSIONAL SUMMARY

Master of Science student in Enterprise Artificial Intelligence at Boston University and Magna Cum Laude graduate of the University of South Florida with dual bachelor's degrees in Finance and Artificial Intelligence & Business Analytics. Currently a Front-End & UI Developer at Atlas Health Systems, with added experience in developing AI-driven applications, data integration, and machine learning models. Combines technical proficiency with financial and business acumen to deliver practical, data-driven solutions. Seeking an entry-level or internship opportunity in AI, Data Analytics, or Finance.

EDUCATION

MASTER OF SCIENCE: ENTERPRISE AI **Expected May 2028**
Boston University, Boston, Massachusetts
BACHELOR OF SCIENCE: AI-BA & FINANCE **August 2026**
University of South Florida, Tampa, Florida **GPA: 3.85** | Magna Cum Laude

SKILLS

Programming & Tools: Python, SQL, JavaScript, R, RStudio, React, Next.js, HTML, CSS, Git, Docker, Jupyter
ML, Technologies, & Concepts: Pandas, scikit-learn, NumPy, k-Means, Decision Trees, Data Pipelines, Neural Networks, Rest APIs, Extract/Transform/Load (ETL), Distributed Systems, Model Evaluation
Data Visualization & Analytics: Microsoft Excel, Tableau, Power BI, Qlik

EXPERIENCE

ATLAS HEALTH SYSTEMS, Columbus, OH, Front-End & UI Developer **June 2026 - Present**
- Developing the user interface for an electronic health record platform; built company's responsive marketing website.
- Collaborating on development of the core EHR platform by implementing front-end features, translating product requirements into user-friendly interfaces, and supporting ongoing system development.

THE POWER BROKER MEDIA GROUP, St. Petersburg, FL, Research & Data Analyst **May - July 2026**
- Research, analysis, data visualization and data-anchored storytelling for the 20th Anniversary Edition of the Power Broker magazine, working under Dr. Han Reichgelt and Gypsy Gallardo.

INFOTECH CONSULT, LLC, Tampa, FL, Finance Intern **Mar 2023 - Mar 2026**
- Helped track business expenses and keep financial records organized in Excel.
- Assisted with annual report filing and kept track of deadlines to make sure the company stayed compliant.

UNIVERSAL ACADEMY OF FLORIDA, Tampa, FL, Business Administration Intern **Sep 2024 - June 2025**
- Supported administrative and accounting operations, including scheduling, data entry, and reconciliation.

RELEVANT COURSEWORK

Big Data for AI & Analytics	Applied Data Science	Data Mining & Predictive Analytics
Python for Business Analytics	AI & Analytics	Business Application Development
Statistical Programming	Data Visualization	Data Modeling for Business Analytics

TECHNICAL PROJECTS

1. **Loan Default Risk Model - Machine Learning Model** (Python, Pandas, Logistic Regression, Trees, Ensembles)
   - Developed and evaluated loan default prediction models using feature engineering, EDA, and cross-validation.
   - Optimized classification thresholds using cost trade-offs, delivering a model projected to reduce losses by ~$450K.
2. **Distributed Data Pipeline - ETL & Data Engineering** (SQL, PostgreSQL, Cassandra, Citus, Docker, Python)
   - Built scalable ETL pipelines integrating distributed PostgreSQL databases into a centralized data warehouse.
   - Automated sharded data processing with Docker and evaluated Cassandra and Citus for scalable analytics.
3. **Supply Chain Manufacturing - Big Data Pipeline (**HDFS, PySpark, Kafka, Spark, Airflow, Docker, Python)
   - Built scalable batch and real-time data pipelines using HDFS, PySpark, Kafka, Spark Streaming, and Docker.
   - Orchestrated workflows with Airflow and analyzed manufacturing data for quality and operational insights.

HONORS & LEADERSHIP

- Earned **Dean's List honors** for multiple semesters at USF; awarded for excellence and leadership in AI & Finance
- **Certified** in Bloomberg Market Concepts, Harvard Spreadsheet Modeling & USF Muma Citizen Data Science
- Served as **AI Spokesperson** for GEMS Dubai American Academy AI and Robotics community; programmed and demonstrated Baxter robot by Rethink Robotics
